oneclick™ | For Software Vendors

*accessing the unlimited*

Instantly available cloud platform for the global software distribution

Customers today want to consume software web-based and in the form of a monthly or annual subscription. oneclick™ is a **turnkey solution** that allows you to provide your application in real-time "as-a-service" for customers and users.

Either connect your **own infrastructure** or use already **existing cloud resources** from different providers. You also have the option of setting up demo environments and running operations with infrastructure, updates and patches as a complete **managed service**.

Central and secure
Workspace
in the Browser

"Our strategy is to significantly increase the proportion of SaaS revenue we and our partners generate over the coming months. The oneclick™ platform as Sage Certified Solution supports us in this."

sage

"With oneclick™, our customers can securely access an existing installation of the software from any end device via the browser. Data never leaves the specified hosting location due to encrypted streaming."

+ableau

"The automated provisioning of the systems considerably simplifies the roll-out of our software and enables our channel partners to create their own users in the shortest possible time."

Enghouse Interactive

The oneclick™ platform includes the following features:

Web-based direct delivery of an individual application, e.g. as a shortcut on the local desktop or in the App Launcher from O365 or Google G Suite.

Extremely fast, self-developed streaming protocol for **smooth remote work** as well as optimised mouse and keyboard inputs for mobile devices.

Marketplace function for independent order processing by customers and automated provisioning.

Consolidation of several applications in a central **workspace in the browser**, with the possibility of App2App communication.

Mounted drive that can be paired with any application, including drag-and-drop file upload and offline functionality.

And **much more**:

- ✓ Multi-tenant capability
- ✓ Implementation of various licensing models
- ✓ Integration of USB devices
- ✓ Cloud printing
- ✓ Scalable as required
- ✓ Extensive security mechanisms
- ✓ EU GDPR compliant

With oneclick™ as your delivery model for applications and data, you can reduce **provisioning costs** for yourself and your customers **by up to 50%**.
